

Nocturnal Animals

Video

1. Night animals sleep during the day and are active at night. **Watch** this [video](#) to learn about a few night animals with excellent night vision.

What did you learn?

2. After watching the video, **write** down 5 facts that you learned about animals that are active at night.

- _____

- _____

- _____

- _____

- _____

Story Writing

3. **Listen** to the story "[Owl Babies](#)" by Martin Waddel. In this story, the babies get worried when their mother goes out in the night. We see the story from their point of view. Think about it from the mother owl's point of view and **write** about her night out hunting for food.

Math Worksheet

4. **Practise** [subtracting numbers 1-10 quickly](#). The goal of this activity is to complete all 100 questions in 5 minutes.

Word Problem

5. **Read** the word problem below and **write** the answer.
 - ★ Many owl families live in the large oak tree in the forest. During the day, there were 17 owls sleeping in the tree. When night came, 5 mother owls left to get food for their families. How many owls were still in the tree?

Fun Stuff!

6. **Follow** this [guide](#) and pose like night animals to calm your body down.
7. Once you have practised those on your own, **join** [Jamie and Tallulah](#) on their adventure camping at night.
